Alignment

Chapter: Flexbox | Track: CSS

Flexbox naal cheezan nu jithay marzi tikao:

```
.container {
  display: flex;
  justify-content: center;  /* khabi-saji */
  align-items: center;      /* utte-thalle */
  gap: 10px;               /* iteman vich fasla */
  height: 200px;
}
```

- justify-content — main axis: start, center, space-between
- align-items — cross axis: start, center
- gap — iteman vichkar fasla

TIP: Yaad rakho: justify-content: center + align-items: center = cheez bilkul vichkar!
