Arrays

Chapter: Arrays & Objects | Track: JavaScript

Kai cheezan ik list vich:

```
let phal = ["saib", "kela", "angoor"];
console.log(phal[0]); // "saib" (ginti 0 toh!)
phal.push("ammood");   // aakhir te pao
console.log(phal.length); // 4
```

- Array di ginti 0 toh shuru hundi!
- push() — aakhir te item paonda
- length — kinne items ne

TIP: Yaad rakho: Pehla item = [0], dooja = [1]. Eh galti sab toh vadh hundi hai!
