Variables

Chapter: JS Basics & Variables | Track: JavaScript

Variables dabbe ne — value rakhde ne:

```
let naam = "Usman";   // badal sakda
const umar = 22;      // fix, nahi badalda
var purana = "na vartao"; // purana tareeka

let ginti = 5;
ginti = 10;   // theek (let badal sakda)
// umar = 23; // GALAT! const nahi badalda
```

- let — badal sakda (aam vartao)
- const — fix rehnda (jad ho sake ehi vartao)
- var — purana, hun na vartao
- String "..." vich, number beghair quotes: let n = 22
