Comparison

Chapter: Operators & Conditions | Track: JavaScript

Do cheezan di tulna:

```
10 === 10;   // true (value + type dono)
10 == "10";  // true (sirf value) — na vartao!
10 !== 5;    // true (brabar nahi)
10 > 5;      // true
5 <= 5;       // true
```

- === — strict (value + type)
- !== — strict not-equal
- >, <, >=, <= — tulna

TIP: Yaad rakho: Hamesha === vartao, == nahi — == type nu ignore karda (bug da ghar)!
