Style te HTML badlo

Chapter: DOM Manipulation | Track: JavaScript

Text toh ilawa rang te poora HTML vi badal sakde:

```
let p = document.getElementById("msg");
p.style.color = "orange";       // rang badlo
p.style.fontSize = "30px";      // size badlo
p.style.backgroundColor = "black";

// Poora HTML pa deo:
p.innerHTML = "<b>Bold</b> text!";
```

- .style.color — CSS property (camelCase!)
- background-color → backgroundColor
- .innerHTML — HTML hi pa deo

TIP: Khatra: innerHTML vich user da input na pao — hack (XSS) ho sakda hai!
