Function banao te chalao

Chapter: Functions | Track: JavaScript

Code nu dabbe vich pao — ik vaari likho, sau vaari chalao:

```
function salaam(naam) {
  return "Assalam-o-Alaikum, " + naam + "!";
}

let msg = salaam("Usman");
console.log(msg); // Assalam-o-Alaikum, Usman!
```

- naam = parameter (andar aun wala variable)
- "Usman" = argument (bhejeya hoya value)
- return = value wapis bhejda

TIP: Yaad rakho: Function ik vaari likho, sau vaari chalao — ehi asli programming hai!
